GMT iec 61968 1 ed 1 pdf -  
IEC 60601 is a series of  
technical standards for the  
safety and essential  
performance of medical  
electrical equipment,  
published by the  
International  
Electrotechnical

Commission. First published  
in 1977 and regularly  
updated and restructured, as  
of 2011 it consists of a  
general standard, about 10  
collateral standards, and  
about 60 particular  
standards. IEC 60601 -  
Wikipedia - International  
standard ISO/IEC 11801  
Information technology "â€”  
Generic cabling for  
customer premises specifies  
general-purpose  
telecommunication cabling  
systems (structured cabling)  
that are suitable for a wide  
range of applications  
(analog and ISDN  
telephony, various data  
communication standards,  
building control systems,  
factory automation). It  
covers both balanced  
copper cabling and optical
